IDEA 2822-65  
Copy  
23 November 1965

MEMORANDUM FOR: Deputy for Field Activities OSA

SUBJECT : [ ] Commander's Report - October 1965

25X1

1. Review of subject report has been performed.  
The following comments are considered appropriate:

a. Ref: Para 2, I Summary: Latest discussions indicate excellent possibility that surfacing product "JENNITE-16" manufactured by Conrad Solvig Company will provide an acceptable non-penetrable runway surface. Testing of "J-16" surface samples scheduled begin 17 November. [ ] will continue monitor tests and subsequent evaluations in conjunction with host base personnel.

25X1

b. Ref: Para 3, IV Materiel: Progress of Article paint program is satisfactory to date. Final decision on paint scheme to be employed is expected in late November. Headquarters is concurrently emphasizing maintenance techniques to preclude scuffed or shiny painted surfaces. [ ] is developing aircraft washing equipment fitted to these new requirements.

25X1

c. Ref: Para VI Life Support (Personal Equipment): Partial resolution of the "bit and piece" support problem was attained. Further follow-on actions are being taken with [ ] to fully resolve this situation, as well as to improve support of AN/URT-21 requirements at [ ].

25X1

25X1

2. Other items noted.

25X1
